Re: Letter of Appreciation

On behalf of the management, members of staff and the entire working community of Academy Hospital and Maternity Centre, we say thank you for donating dozens of Salbutamol Inhaler for benefits of our patients. Your donation means that you understand just how valuable prevention and control of acute asthmatics attacks mean to patients suffering from the said condition.

Considering that a significant number of patients that would be beneficiary of Salbutamol inhaler are indigent patients, coupled with the fact that many of these patients live in environments that made them prone to bouts of attacks, this particular donation is much more worth than any monetary values that can be attached to it, it is a live-saving.

Although donation of Salbutamol inhaler may seem small to the average person, you know that they are not. That's why you gave us, and why the beneficiaries and we are full of gratitude for your generosity. Donors like you help make our works easier, ensure that our chronic asthmatic patients are well-optimized and guaranteed that we can continue to see them on follow up clinics for long-term monitoring.

Again, thank you! We love your support.

Best always,
